

Founded on April 10<sup>th</sup> 2011, by two childhood friends Mashiur Rahman and Kazi Siam Ahmed, Transitional Corporation is one of many export, import and indenting firms that exist in Bangladesh. But our speciality lies in the way we handle our clients. Both the founders are experienced in the field of export and import to different parts of the world. Before forming the firm both friends were engaged in individual export and import businesses.

But as the management missed a feminine touch a new director was introduced in the firm, Nusrat Jahan Rahman. She also has vast experience of export and import within Asia and Europe. Considering the strengths of the three partners, it can be said that their strengths are complimentary to each other's weaknesses.

Under such circumstances Transitional Corporation came into existence and was incorporated under the Register Of Joint Stock Companies and Firms in Dhaka on June 12<sup>th</sup> 2011.
